PETITION

Petition to Lower Hydro Rates

To the Legislative Assembly of Ontario:

Whereas: After more than a decade of mismanagement of Ontario's energy sector, including the cancellation of the Oakville and Mississauga gas plants costing \$1.1 billion, feed-in tariff (FIT) contracts with wind and solar companies, and the sale of surplus energy to neighboring jurisdictions at a loss have all put upward pressure on hydro bills; and

Whereas: A recent Auditor General's report found Ontarians overpaid for electricity by \$37 billion over the past 8 years and estimates that we will overpay by an additional \$133 billion by 2032 if nothing changes; and

Whereas: Ontarians and businesses can no longer afford the rising cost of hydro, with 567,000 residential electricity customers in arrears in 2015; and

Whereas: The CEO of Hydro One has a \$4 million salary compared to Quebec's CEO \$400,000 salary; and

Whereas: The sell-off of 60% of Hydro One is opposed by a majority of Ontarians and may lead to even higher hydro rates.

Therefore: We the undersigned petition the Legislative Assembly of Ontario as follows: That the Liberal government stop the sell-off of Hydro One, stop signing energy contracts we don't need, address out of control executive pay and take immediate steps to stabilize hydro bills for all Ontarians.
